Notice for M. Sc 1st Semester Students

This is to notify that the geological field work, as per the curriculum of M. Sc Engineering Geology 1st Semester, will be conducted from Jestha 20, 2074 (June 3, 2017) in Hetauda area for continuously nine days. Each student should complete this field work and submit a field report individually. The field work carries one credit (25 Marks) of course load and each student should be able to score pass marks based on his/her field work performance, field report writing, and viva. Students are requested to submit their field reports before the practical examination, which will be held at the end of the 1st Semester. Students are requested to contact **Mukunda Raj Poudel** (Field In-charge) for further information.
